With the passage of State Initiative, I161, the Outfitter Sponsored Guaranteed License for elk and deer is no longer available. **All non-resident licenses are now available through a draw system.** You can go online to MFWP, www.fwp.mt.gov, to learn more about the new changes. Do not be discouraged, your chances of drawing a combination elk/deer license are quite good. Buying preference points will improve your chances of drawing. The preference point system is explained on MFWP website. You are also allowed to apply as a "party" for the draw if there are two or more of you wanting to hunt together. We are happy to provide clarification or answer any questions you may have about licensing, preference points and party application.

Applications for the General Draw and Special Permitted areas for elk and deer can be made online through Montana Fish Wildlife & Parks, www.fwp.mt.gov, (406-444-2950). **The application deadline is March 15th for both the General Draw for elk and deer and the Special Permit Draw for elk and deer.** The drawing takes place mid-April. You cannot apply for a special permit without first applying for a general draw license. You may **apply** for a special permit for elk and deer **at the same time** you apply for a general draw license. MFWP's website explains in detail about applying for elk and deer licenses. Do not hesitate to call or email us if you have any questions. Most of our elk/deer hunting can be done with a general license, but, we do have some excellent permitted areas for elk and deer. **These deadlines apply for both residents and non-residents.**

Other Species Hunts: Bighorn Sheep, Mountain Goat, Moose, Black Bear and Wolf

Our **Bighorn sheep hunts** are in an **unlimited sheep area** north of Yellowstone National Park. An unlimited sheep permit area guarantees you a license. The area and the expertise of our guides make it the best opportunity in the lower 48 to kill a ram.

Our bighorn sheep hunt out of Independence is a 10 day (day in, 8 days hunting, day out) hunt. **This is a progressive backpacking hunt.** We hunt 1 guide to 1 hunter and only book 1 or 2 sheep hunters a year for this area. THE MOGA HUNTER/ANGLER DEFENSE FUND

In 2012 Montana Outfitters and Guides Association established the Hunter/Angler Defense Fund to ensure that non-resident sportsmen would be able to continue to have the opportunity to hunt and fish in Montana. As a past board member of MOGA I believe our establishing the Hunter/Angler Defense Fund (MHADF) was and is the best way to support our industry in the fight for your right to hunt and fish in Montana. When you book a hunt with Absaroka Beartooth Outfitters, \$50 of the cost of your hunt goes to the MOGA Hunter/Angler Defense Fund. Thank you for your participation!

Hunter/Angler Access Defense Fund

Outfitters Defending Nationwide Right to Hunt and Fish in Montana

“In a civilized and cultivated country, wild animals only continue to exist at all when preserved by sportsmen. The excellent people who protest against all hunting and consider sportsmen as enemies of wildlife are ignorant of the fact that in reality the genuine sportsman is by all odds, the most important factor in keeping the larger and more valuable wild creatures from total extinction.” - Theodore Roosevelt

The MOGA Hunter/Angler Defense Fund (MHADF) was established to ensure that non-resident sportsmen will continue to have the opportunity to hunt and fish in Montana.

Trophy hunting and sport fishing, particularly by non-residents, is under increasing pressure in Montana from radical groups both within the state and animal rights activists outside of the state. Although these groups differ in their composition and tactics they both seek the same outcome; reduced hunting and fishing opportunity. The in-state contingent, who purport to be “sportsmen” seek to fracture the hunting and angling community along lines of residence and then significantly restrict non-resident hunting and fishing opportunity. The anti-hunting group just seeks to reduce hunting opportunity and will take what gains they can. In both cases, success is measured by a net loss in opportunity in Montana. Unfortunately, they are both making gains.

The anti-hunting pressure from the “anti-everything” organizations is strong and well organized. They have unlimited resources and are using new strategies and building alliances to lobby their agendas. Their relentless efforts to prevent delisting of wolves and grizzly bears and thwart effective and professional management for these species are but one example.

Fringe groups, led by the Montana Wildlife Federation, believe that outfitting services equate to the commercialization of wildlife and profess it to be the same as the outlawed practice of market hunting of years ago. They claim that fees paid for Outfitter services, leasing of land for quality hunting and fishing access, and the purchase of outfitters services for fishing constitute a breach of the Public Trust and that jeopardizes the public’s opportunity to enjoy the natural bounty of Montana.

WWW.ABOADVENTURES.COM

They see reducing the guided non-resident opportunity as a means to enhance their personal opportunity at the expense of others. They ignore the huge contribution to Montana's wildlife and fisheries management system that non-residents make and the vital economic contribution they sustain. Their tactics of misinformation and fear mongering fracture and weaken the overall hunting community; jeopardizing funding for effective management of natural resources in Montana.

Unfortunately, much of the public are misinformed or under informed. As hunters and anglers, we must be vigilant and diligent about relaying the benefits of hunting and fishing to the 70% of people who sit "in the middle". MOGA will continue to take the lead in supporting sound, scientifically based resource management, and our members will continue to serve as active stewards of Montana's natural and cultural heritage.

MOGA is the only organization within Montana that is dedicated to preserving sporting opportunities for nonresidents, including the opportunities for guided hunts, floats, and fishing trips.

If we want hunting to be around for future generations we must have our story told; that hunters and anglers, regardless of where they live, are the true conservationists because hunters pay for conservation and have willingly done so for years. It is a certainty that our opportunity to hunt and fish will be lost if we are fragmented by where we are from, the equipment we use, the species we pursue or the reasons we hunt.

MOGA members charge their sportsmen clients a \$50.00 fee. This contribution is collected by the outfitter, held in-trust for MOGA, and remitted at year end.
